2	Life Time Membership	Established criteria with an application form for Life Membership (Forms and applications are available through the Secretary and are stored in the locked fire safe file cabinet for safe keeping) Passed 2/2004

Life Time Membership Qualifications:

A person may be nominated for life-time membership in the club by the following procedures:

The club member or members wishing to nominate another club member for life-time membership shall obtain a Nomination Form from the Membership Chairperson and it shall be returned to the Membership Chairperson or the suggestion box filled out completely. The original will be held in the file of master forms and an extra copies are to be held by the Membership Chairperson. A copy of the application is also available on our website.

The nominating party must complete the form and list the outstanding accomplishments of the nominee. This form will then be submitted to the Membership Chairperson to be read at the next regular Board Meeting with copies given to all Board Members to review. The forms will then be returned to the Chairperson.

Upon reviewing the Nominating form, the Board will determine if the individual meets the minimum requirements for life-time membership.

The Minimum Requirements are:

- (1) A minimum of ten (10) years of active service to the club. Dates and activities will be checked by the Membership Chairperson.

- (2) A contribution to the club through faithful service such as: instructor, holding an office, maintaining equipment, participating in the operations of the Tailgate, participating in organizing and conducting activities, teaching classes such as silver fabrication, casting, fused glass, chain maille, cold connection, beading, etc. The candidate's application should show contributions that go above and beyond the normal participation in the club.

A vote will be taken by the Board Members at the second Board Meeting after receiving the original Nominating Form. The Board Members will sign and date the original Nomination Form if they are in agreement that the individual nominated has met the qualifications. The Board will then present the membership with their recommendation of the nomination at the next General Business Meeting. The accomplishments of the nominee will be read to the general membership at the meeting and a vote taken (passage is to be by more than 50% of the general membership that is in attendance for the vote). Upon approval of the general membership, the nominee will be notified in writing with a Life-Time Membership certificate within 5 days following the general business meeting by the Membership Chairperson.

A Life-Time member receives no other favor than exemption from paying the annual dues of the club and their name added to the Lifetime Membership plaque. If the Life-Time membership is approved at any time before December a refund of that year's dues will **not** be given.

Vote: Life-Time Membership is not awarded based solely on the length of membership in the club. An individual may have been a due paying member for over 30 years, but has not attended regular business meetings or club functions and therefore does not qualify on longevity alone.

2. The instructors, at their next scheduled meeting, will evaluate the application and make a recommendation to either accept or reject the application to the board.
3. The Board, at their next scheduled meeting, will either accept or reject the application.
4. The applicant will be notified of the decision of the Board.
5. If the applicant is accepted as an instructor they do not have to go back through the probationary period; but will immediately become an active instructor.

Time Limit on Equipment

There is normally no time limit on the use of our club equipment; but in the event that there is another club member waiting to use the same equipment then these are the steps to be followed:

1. The member wanting to use the equipment will let the instructor on duty know what piece of equipment they want to use.
2. The instructor will talk to the member currently using that piece of equipment.
3. If the member using the equipment is using only one piece of the same type of equipment they will have one hour to use the equipment and clean up the equipment. The equipment is to be cleaned (unless the next user agrees to accept the equipment as is) and let the member waiting to use the equipment have the equipment.
4. If the member using the piece of the equipment is using more than one piece of like equipment then they can finish the current operation but cannot start another operation on the equipment. The current user must clean up the equipment unless the next user agrees to accept the equipment as is.

NOTE: The same type of equipment usually refers to using two or more slab saws. It is not limited to only this category of

equipment.
